

A NEW SERIES ENTITLED **Cooking for Kids**

Not only recipes, but also cultural facts to discover a gastronomic heritage. Here again, children travel and learn with fun!

Mediterranean Cooking for Kids

How do you cook pesto? Would you like some chichis for breakfast? Who is ice cream world champion? What do you know about cheese? What is pizza's favourite topping? And who is the number one star of the Mediterranean? Find the answers in various recipes, with images and short texts. From Algeria to Turkey via Italy and more, seven children make you discover the flavours of Mediterranean cooking. Go for an exotic journey full of flavour!

Ages 7+

Softcover . 20x20cm . 24 pages . **5,95€**

FOR THE RECORD...

It all started in 2003. Stéphanie and Hugues were working in an advertising agency, as an art director and project manager, and they decided to leave for a 9-month trip with their 3-year old daughter. Morocco, Italy, Turkey... give them inspiration to start a travel log together. She is illustrating, he is writing, and together they create a hundred pages of sunny memories. On this occasion, they realized that such an illustrated travel log offered a great way of talking about a foreign country with children.

In 2008, then parents of 3 children, they travelled again to Morocco, and things took on a new turn... They created a playful book that children could take along with them when travelling with their family, or which could simply be a fun way to discover a new country from home. And all this being a family story, they invited Julie, Stéphanie's sister, to illustrate half of the games. So this is where this series comes from. For immediate use if the urge to travel is too strong!

These new books, both playful and educational, are aimed at children who travel with their family, but also at those who want to discover the various cultures of the world from home. All titles in the series include a mix of information about geography, cooking, religion, language, history, fun facts, along with games and activities to explore different parts of the world. Each title features 64 colourful and surprising pages for a fascinating immersion in the cultural wealth of these countries.

A NEW SERIES OF ACTIVITY BOOKS INCLUDING:

- PORTUGAL
- SPAIN
